Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on August 9, 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Remarks

1. The Amendment filed on August 9, 2005 has been received and entered. Claims 6, and 11-16 have been cancelled. Therefore, claims 1-5, 7-10, and 17-24 are now pending.
2. The Amendment overcame the 35 USC 101 rejections.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 17-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 17 recites the limitation "the location" in line 4. There is insufficient antecedent basis for this limitation in the claim.

Claims 18-20 are dependent on claim 17 and therefore carry the same deficiency.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an

international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

6. Claim 17 is rejected under 35 U.S.C. 102(e) as being anticipated by Stilp (U.S. Patent No. 6,603,428 B2).

As to claim 17, Stilp discloses a computer-based method for providing a measure of degradation associated with location reports over a period of time, said location reports corresponding to one or more tracked entities, said method comprising:

- a. setting a counter to point to the location first of said tracked entities (See column 18, lines 15-35, also see column 36, lines 17-29);
- b. identifying one or more clusters associated with tracked entity pointed by said counter (See column 18, lines 15-35);
- c. creating N optimal partitions for each of said identified clusters (See column 50, lines 30-58);
- d. identifying an optimal expiration time associated with each of said partitions via time interval analysis (See column 39, lines 1-23, also see column 47, lines 5-32);
- e. incrementing said counter to point to next of said tracked entities and repeating steps b-d exhaustively for remainder of said tracked entities (See column 47, lines 5-32);
- f. wherein said location reports, corresponding to one or more tracked entities based upon said identified optimal expiration time, provide a level of confidence as to said location of said tracked entities (See Abstract, also see column 39, lines 1-23).

Allowable Subject Matter

7. Claims 18-20 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Allowance

8. Claims 1-5, 7-9, and 21-24 are allowed over prior art of record.

Response to Arguments

9. Applicant's arguments with respect to claims 1-5, 7-10, and 17-24 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

10. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

11. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Altschuler et al. (U.S. Patent No. 6,195,622 B1) teaches timestamp expirations.

12. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Neveen Abel-Jalil whose telephone number is 571-272-4074.

The examiner can normally be reached on 8:30AM-5:30PM EST.
